

PARAFFIN infusions

PERFECTSENSE PARAFFIN combines powerful topical ingredients, medical-grade paraffin, soothing heat, and aromatherapy into one unique service. The PerfectSense Paraffin System heats each individual pair of mitts or booties using our natural mineral technology - no electricity needed.

HOW IT WORKS ::

Chamber

The PerfectSense chamber holds one pair of gloves or slippers and a heater pouch. The unique design lets the paraffin drip away from the heat, so the paraffin's always the perfect temperature.

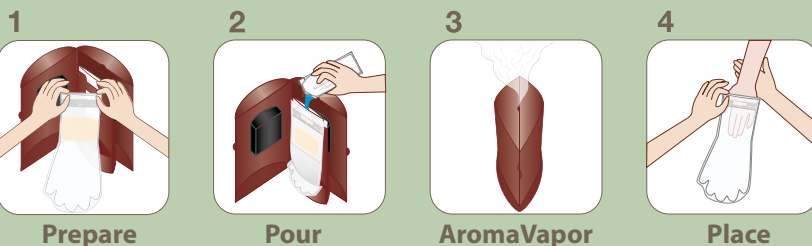

Heater Pouch & Activator

Pouring the Activator, infused with pure essential oils, into the Heater Pouch creates the aromatherapy vapor while melting the paraffin. Choose from Lavender or Invigorate aromatherapy scents, or choose Neutral and add your own blend of custom essential oils.

Treatments

Each treatment contains one pair of gloves or slippers. Each glove or slipper contains medical-grade paraffin - over 3 times the average amount received from a dip. The single-use treatments are sealed at the factory for total sanitation - no one ever touches the paraffin except the client.

Easy as

BENEFITS ::

Safe and Sanitary

Chamber design keeps paraffin at perfect temperature; individual treatments mean no cross-contamination risk

No electricity needed

Mineral heating technology means you can do treatments anywhere, any time - no need for an outlet or long waits while a dip heats up.

Powerful Results, Powerful Profit

Several powerful therapies in one give your clients real results and value; low cost treatments add new revenue with every treatment.

BLENDS ::

NOURISHMENT

Using 11 vitamins and minerals, the Nourishment blend provides balanced protection and skin conditioning for anyone and helps soften dry, damaged skin.

REDROCK DETOX

Arizona Red Rock mud and Romanian Green River silts combine with black iron to draw toxins out of the body for a powerful cleansing effect.

ANTIOXIDANT

White tea, grape seed extract and our exclusive Berry Blend help promote cellular renewal and help protect against sun and age damage.
